

ANOTHER CONVICTION FOR LIQUOR SELLING

Jury in City Court Finds James A. Benson Guilty of Selling Liquor in Violation of Law

Monday afternoon in the City Court of Justice E. J. Palmer, a jury found James A. Benson guilty of selling intoxicating liquor to one J. E. Teeter at Lund station, in violation of law. The jury consisted of T. J. Jones, E. B. Dalley, Isaac Parry and David Haight.

The verdict was returned Monday night and the time for passing sentence was set for Tuesday at 9 a. m., at which time the defense interposed a motion in arrest of judgment on the grounds that the complaint did not charge an offense in that the place of sale was not definitely alleged, it being charged that the offense was committed "at Lund precinct," without sufficiently identifying the place in Lund precinct.

The motion was overruled after an extended argument by counsel. Before judgment was pronounced both the defense and the State asked that the court be lenient in passing sentence, in view of the financial condition of the defendant, following which the court sentenced the defendant to pay a fine of \$200 and serve sixty days in jail, the jail sentence to be remitted during the good behavior of the defendant.

The state was represented by District Attorney E. H. Ryan and County Attorney J. H. Fife and the defense by A. D. McGuire.

SULZER IMPEACHMENT WILL COST \$100,000

The Sulzer high court of impeachment threatens to cost the state of New York \$100,000.

Certain senators are contending that the senators taking part in the proceedings that begin on September 18, to remove the governor, will be entitled to pay received by the judges of the courts of appeals who participate in the trial—\$40 a day—instead of \$10, their pay as legislators.

At the lower basis the item of expense to the state for compensation of the forty-nine senators would amount to \$490 a day, and at the high rate to \$1,960 a day. The latter figure would make the senatorial expense item alone for a thirty days' session \$60,000.

The compensation for the nine members of the assembly, "the steering committee," at the same rate would add \$10,000, and the expense of attendants, witnesses, stenographers and other necessary adjuncts to the court are likely to bring the total up to \$100,000.

THE DAIRY COW.

"Don't sit down in the meadow and wait for the cow to back up to be milked—go to the cow." The basis for the whole dairy industry is the cow and if farmers are going to utilize to the best advantage the great quantities of roughage that annually are wasted on every farm they must go after the cow.

There is no way to convert the corn, the hay, the clover, the straw, the kaffir, the milo and the abundance of other green feed into a marketable form so quickly and so economically as by feeding to the

dairy cow. She works day and night constantly, both summer and winter, on week days and Sundays, in flood and drouth, to convert the unmarketable waste of the farm into a finished and valuable product of human food.

The first thing is to get the cows. Profits are then assured, for the dry farm country is especially adapted, the feed is there, the marketing facilities are at hand in most sections and the products are in growing demand.—G. L. Martin.

United States Land Office,
Salt Lake City, Utah, July 28, 1913.
To Whom It May Concern: Notice is hereby given that the State of Utah has filed in this office lists of lands, selected by the said state, under section 6 of the Act of Congress approved July 16, 1904, as indemnity school lands, viz: N5/8SE4, SW1/4SE4, Sec. 13, and NW1/4NE4, Sec. 24, T. 27 S., R. 11 W., S. 1 M. Serial 011676. Copies of said lists, so far as they relate to said tracts by descriptive subdivisions, have been conspicuously posted in this office for inspection by any person interested and by the public generally. During the period of publication of this notice, or any

time thereafter, and before final approval and certification, under departmental regulations of April 25, 1907, protests or contests against the claim of the State to any of the tracts or subdivisions hereinbefore described on the ground that the same is more valuable for mineral than for agricultural purposes, will be received and noted for report to the General Land Office at Washington, D. C. Failure to protest or contest, within the time specified will be considered sufficient evidence of the non-mineral character of the tracts and the selections thereof, being otherwise free from objection, will be approved to the State.
